## About Me

I am a dedicated and curious student currently pursuing Computer Science with specialization in AI & ML with a strong enthusiasm for learning and growth. I am actively developing skills in Web Development and learning about AI, I enjoy tackling challenges that allow me to apply my knowledge in practical, real-world scenarios. I am eager to contribute to meaningful projects and grow as a professional.

## Skills

- Programming Languages: Java, C++ (Basic proficiency)
- Technologies: Arduino, HTML, CSS (Basic proficiency)
- Software: Microsoft Office (Word, Excel, PowerPoint)
- Problem-Solving: Strong analytical and troubleshooting skills
- Teamwork & Collaboration: Experience working in teams for academic and extracurricular activities
- Communication: Effective written and verbal communication skills, demonstrated through quiz participation and project presentations

## Education

**2023- present**  
SRM Univeristy

Currently pursuing Bachelors of Technology in Computer Science and Engineering with specialization in Artificial Intelligence and Machine Learning.

**2021-2023**  
Resonance College

Completed my Higher Secondary Education (Class 11 and 12) specializing in Mathematics, Physics, and Chemistry (MPC) under the State Syllabus. Achieved score of 97% in the board examinations.

**2014-2021**  
St. Mary's School

Completed my schooling from Class 4 to Class 10 at St. Mary's School, following the CBSE syllabus. In my Class 10 board examinations, I secured 86.8%.

## Language

English   
Telugu   
Hindi 

## Achievements

Participated in district-level Kho Kho and Kabaddi tournaments as part of the school team, demonstrating teamwork and competitive spirit. Actively engaged in Arduino-based projects at the Atal Tinkering Lab, fostering a strong interest in technology and innovation. Additionally, participated in various quizzes and won multiple school-level competitions, reflecting a commitment to academic excellence and problem-solving skills.
